The VISOFOLD SLIM

Versatility

Visofold 1000 Slim doors are available in a variety of opening configurations to suit any application, with the option to fold internally or externally.

Designed to create large, uninterrupted openings, their versatility makes them an ideal solution for both residential and light commercial projects.

The new slim profile maximizes light and space, offering clear, unobstructed views.

This highly adaptable, easy-to-use system is perfect for even the largest projects—capable of opening up an entire wall while delivering a sleek, modern glazed façade when closed.
